## LOST WAX CASTING

### U R N S

Each original urn is a hand sculpted creation. The artist makes a master mold around the original form which all future sculptures will be made. Melted wax is poured into the mold and upon cooling, becomes a duplicate of the original. A ceramic layer is applied over time, which is kiln-fired into a rock hard texture while the wax is melted out and "lost". The ceramic is then filled with molten bronze and the future limited edition pieces are cast.

Each Traditions Limited Edition Cast Urn is numbered and accompanied by a Certificate of Authenticity.
